DAVID DANIEL SCANNELL

**Class Secretary**

WM. LLOYD GARRISON, JR.

### *To the Class:*

Now that the volume of our achievements is ready to be bound between its final covers, I wish to say a few words in connection with its creation, and in explanation of its contents.

It has taken from August of 1902 to the present time to garner the material for this report, but the showing, on the whole, is a good one, 600 men out of a total of 666 having replied in some form to the official appeals.

The slow growth of the report has made it impossible to have every statement up to date, and some addresses may not be all that fancy paints them; but the primary effort has been to procure as much exact information about as many men as possible, as a matter of permanent record as well as of present human interest. The replies sent in have had to be edited in order to group the information into an orderly scheme, and if any man is misquoted or misconstrued the Secretary asks his charitable judgment.

In the body of the report no distinction has been made between regular and temporary members, such separation being confined to the introductory list. As time goes on the chief distinction which will survive in the reports will be between those who do answer the Secretary's notices and those who do not. A list of "Lost Men" has been included in the report, and about these men any information, particularly their addresses, will be very welcome; and all men are urged to send the Secretary copies of wedding announcements, newspaper clippings, and other news matter of interest or moment, bearing upon themselves or upon other classmates.

The statements about deceased members of the class contain only a brief historical outline, as it was found impossible to include expressions of eulogy in a simple record of this nature.

I wish to express my personal thanks to the many men who have responded with promptness and cordiality to my importunate requests. Their number is steadily growing, as is the appreciation of the meaning and the value of our permanent association.

Faithfully,

WILLIAM LLOYD GARRISON, JR.

The Class Fund has \$4,000 invested at practically 4 per cent yielding an income of only \$160 per annum. While the expenses of an ordinary year do not amount to more than \$100, those in years when the Class meets for dinners, etc., are very heavy and cannot be met from the present income. Then, too, class reports are issued from time to time, which adds greatly to running expenses. From July, 1897, to

July, 1902, the Class spent (exclusive of the Senior dinner in 1897) about \$2,500, or an average of \$500 per annum. The expenses for the first two years were naturally large, and those for this year will also be very heavy, but we must count hereafter on an average annual expenditure of at least \$300. To receive an income of \$300 per annum on money invested at 4 per cent., we must increase our "invested" fund to \$7,500. This means that about \$3,500 should be raised. Two thousand of this should be paid in immediately by those who have overdue accounts. To collect the balance I ask the co-operation of every member of the Class, and again urge those who are behindhand in their payments and those who have never subscribed, to make every effort to increase our fund.

N. PENROSE HALLOWELL.

### **WILLIAM BELMONT PARKER**

Immediately on leaving college I began to work on the "Atlantic Monthly," at first in the business department, but soon took up editorial tasks, which gradually became my chief interest, and in about a year I became Assistant Editor. This post I held under two editors, Mr. Walter H. Page, now Editor of "The World's Work," New York, and his successor, Mr. Bliss Perry; but on the death, in January, 1902, of Mr. Horace E. Scudder, Editorial Advisor to Messrs. Houghton, Mifflin & Co., who also publish the "Atlantic," I succeeded to part of his duties, including the editing of the "American Men of Letters" series, the "American Commonwealth" series, and like tasks. My life has been so uneventful and inconspicuous as to contain scarcely an incident that would interest the most curious. The routine of the desk — the morning mail, the importunate poet, the familiar and endless interruptions, which one comes to see after a while are the staple of everybody's occupation — has served to pass away my days as they have passed those of most of us. And this, as we all know, leaves nothing to tell. The slaves of the desk are, in Mr. Charles Eliot Norton's phrase, "a dumb race, an inarticulate generation." I have written articles for "The Popular Science Monthly," the "New World," the "Atlantic Monthly," the "Transcript," and for the "Mail and Express" of New York. Occasionally on Sunday evenings I address seamen and others at the Sailor's Haven, Charlestown. I am a member of the University Club, Boston, the Colonial Club, Cambridge, and of the Harvard Union.
